George Burbidge, Weber County  
Bill Young, Cache County

Other MS4 Representatives:

Derrick Radke, Summit County  
Richard Hatfield, Provo City  
Jason Draper, City of St. George  
Dustin Lewis, Centerville City  
Greg Seegmiller, Cities in Weber County

Private Industry/Organizations:

Karen Nichols, Stantec Consulting  
Jim Caldwell, HAFB  
Paul Betts, HAFB  
Nathan Dawgs, UACD

State Representatives:

Tom Rushing, Water Quality  
Mike George, Water Quality

The items below were discussed during this meeting of the committee.

1. **State Updates:** Tom Rushing gave review of the annual reports that are coming in and indicated that in general they seemed to be well put together. Initial letters will be sent out in the near future indicating that they have been received, followed by a letter of review.
2. **Updates from the counties:** George Burbidge commented that annual reports were completed and delivered.  
Gene Bingham indicated that improvements were being made on current storm water issues.

Greg Seegmiller, Steve Johnson, and Bill Young all made comments concerning the annual report.

Paul Betts and Jim Caldwell from Hill Air Force Base noted that they were finishing up their industrial report with is due in approx. 3 months.

Davis County reported that they were completing the fall street sweeping program and that all of the 4<sup>th</sup> grade classes have been through the storm water class.

Derrick Radke from Summit County informed the group that they received a grant from EPA to update erosion control measures and illicit discharges.

Richard Hatfield says Provo City is focusing on education and their annual fall festival was very good.

3. **Upcoming Flood Plain/Storm Water Manager's Conference-** November 4-5 in Washington, Utah.
4. **Upcoming Training-** Sediment and Erosion Control next month in Dallas.
5. **Report on APWA Panel Discussion-**Paul Taylor gave a review of the APWA conference that was located in West Valley City, Utah. Three general requirements were listed for ordinance development. 1. Illicit discharge. 2. Construction. 3. Post construction. A lot of general information was layed out.
6. **Feedback/Discussion re: Annual Reports:** Everyone seems to like the format that the sub-committee has provided. In general, more documentation and better record keeping seemed to agreed upon by all. There seemed to also be some confusion on a few definitions. A question arose about confusion concerning screening and permanent control structures. Also confusion existed between BMP's and measurable goals. Tom and Mike are working on putting together a checklist to answer the questions that were brought up.

**Next SWAC meeting will be Tuesday, November 9, 2004, Room 101, Deq Building #2, 168 North 1950 West, Salt Lake City.**
